

### **The Pathway Garden – Relocation Details**

Following the show, the garden will be permanently relocated to the Shekinah Centre in Plymouth, a community-based day centre supporting people experiencing homelessness.

The centre provides services which support people experiencing homelessness to build positive lives and futures by helping to find accommodation, assisting improved physical and mental wellbeing, providing training and personal development opportunities, and giving practical support to find employment.

Pathway supports an expert homelessness team at Plymouth Hospital who work very closely with the centre to help people move out of homelessness to better health. We're excited that the garden will become part of those journeys – providing a restorative, tranquil place of rest and sanctuary for patients, staff and the community.

Please find more information about Shekinah Centre here: <https://shekinah.co.uk/>
