Research and Data Analyst

full time (37.5 hours) – salary: £28,000 p.a.

Pathway is a unique national charity with two mutually reinforcing purposes:

i) to improve health and care outcomes for people experiencing homelessness, and other forms of profound social exclusion,

ii) to use the evidence and experience we generate to campaign for the policy changes that will prevent homelessness and social exclusion in the first place.

We are looking to strengthen our small, dynamic core support team and increase our capacity to deliver and build on the work of our first ten years. We are looking to recruit a highly motivated **Research and Data Analyst**.

This is a new role based in our Operations Team and the successful candidate will work across the organisation but particularly with our Quality Improvement Support Team supporting our remote Pathway hospital teams working in the NHS, and with our Communications Officer.

Applicants need at least two years' experience of working in health service research, quality improvement and/or statistics; demonstrable experience of database development, management and support; strong qualitative and quantitative research and data analysis skills and techniques; experience of successfully undertaking relevant, accurate and timely analysis; and an awareness of data protection regulations, research governance, patient confidentiality and consent.

Pathway values diversity and aims to have a workforce that reflects this. We encourage applications from all sections of the community.

In addition to the competitive salary, we offer: 30 days paid holiday plus bank holidays; a contributory pension; and the opportunity to take advantage of a travel to work scheme.

Applying for the role

Further details and an application form can be found on our current vacancies page https://www.pathway.org.uk/about-us/vacancies/ Pathway will only consider applications submitted on our application form. *The submission of a C.V. and covering letter will not be considered as an application for this role*. The closing date

for applications is Monday 4 October 2021, and interviews will take place in the second or third week of October 2021.
